

SACRED WORLDS

SACRED WORLDS

Now and then, a child is born. A special child with gifts and talents not yet discovered. A child you cherish. A golden child, hungry for the opportunity to blossom into the fullness of being.

The world is waiting, in need of the unique spark only that child can bring.

You want to help, to put them on a path of self-discovery. A path that engages them right where they are, something fun, something magical, an adventure. A path you could walk with them, hand-in-hand, helping them know themselves, helping you know them better, maybe even helping you know your own gifts you have not yet uncovered.

Sacred Worlds, the cooperative adventure game for all ages, is a path that opens the doors to Spirit, Creativity, Nature and, most importantly the discovery of Self.

At the heart of the game is the story of the Golden Child who, birthed from a star with unique abilities, lost the memory of those talents once earth-bound. The Child's quest to remember and recover those gifts leads through magical realms of Earth, Water and Cosmos, bringing tools and glyphs of assistance. As the child progresses on the journey, totem animals, nature spirits and cosmos characters become part of the play and the child's own voice and imagination help in making decisions that benebenefit all the realms, keeping the world in harmony.
